

## HIGH PERFORMANCE HEAVY DUTY FLOOR MODEL RADIANT CHAR BROILERS

**Model CH-6**  
with optional legs & casters,  
splash guard, plate shelf & work deck

### SPECIFICATIONS

Extra heavy duty radiant char broilers are designed for high volume broiling without charcoal or ceramic stones.

The CH Series features unitized construction. The entire chassis frame including the base is hand-crafted of 1/2" (13mm) to 1/4" (6mm) thick HRS and welded to form a single unit without fasteners. The sides and rear of the outer shell is made of heavy gauge CRS and is welded to the chassis frame to complete the unitized construction and finished with durable Baker Tone paint.

CH Series features 24" long (610mm) aluminized steel burners rated at 18,000 BTUH each (5.27kw) located every 5 1/4" (133mm). Each burner features a separate, independent operator-controlled valve. 14-gauge stainless steel heat deflector radiants are located directly above each burner for an even transfer of radiant heat to the broiling surface. Cast iron burners and cast iron radiants are optional.

Standard top grates are heavy-duty cast iron. A variety of different style grates are available and may be mixed and matched. Each grate may be adjusted independently in any of three tilting positions. Broiler grates are 23 3/4" deep (603mm) for maximum production.

Exterior measures 28 1/4" deep (718mm) plus 8" lintel plate/shelf (203mm) or 9 1/8" (232mm) work deck with plate shelf. Working height measures 33 1/2" (851mm) with legs, or 20" (508mm) without legs, plus 6 1/2" (165mm) back splash. Standard widths range from 33 1/2" (851mm) up to 75 3/4" (1924mm).

Standard features include 2" deep stainless steel slide-out water pans and grease drawer, rear gas connections and pressure regulator. CH Series may be built in for display cooking and exhibition kitchens. Legs sold separately.

One year limited parts and labor warranty.

## GAS CHAR BROILERS

- Model CH-6
- Model CH-8
- Model CH-10
- Model CH-12
- Model CH-14

### STANDARD FEATURES

- Heavy plate steel, welded unitized construction
- High performance 18,000 BTUH per burner every 5 1/4"
- Natural or LP gas
- Individual, operator-controlled, adjustable burner valves
- 14-gauge stainless steel radiant heat deflectors above each burner
- 8" deep lintel plate/shelf (203mm)
- 2" deep (51mm) stainless steel water pans
- Stainless steel grease drawer
- Back splash
- Pressure regulator
- One year limited parts & labor warranty

### OPTIONS & ACCESSORIES

- Cast iron burners
- Cast iron radiant heat deflectors
- Stainless steel exterior side panels
- Leg set
- Leg & caster set
- Stainless steel or Richlite work deck with plate shelf
- Custom cut-outs in work deck for sauce pans
- 4" deep water pans (102mm)
- Stainless steel splash guard
- Variety of top grates including meat grates, fish grates, floating rod grates and more
- Stainless steel heat shields
- Side gas connections
- Removable griddle plates
- Log holders for smoke assisted char broiling
- Gas connector hoses
