

## HD COOKLINE COUNTERTOP ELECTRIC FRYERS SERIES: BPHEF

The Bakers Pride® BPHEF series fryer is built tough to meet the demands of busy kitchens while producing great-tasting fried foods in a countertop size. Single- and double-vat models are available with 15 and 30 lb. oil capacities respectively. These models feature a cold zone under the heating elements that reduces the circulation of particles in the frying oil for consistently high-quality results. There is also a safety circuit breaker which automatically trips should oil overheat.

Dumping and cleaning are a breeze thanks to the swing-up heating elements with two-stage locking mechanisms and the lift-out, tanks with carrying handles. Standard features include heavy-duty, stainless steel body, baskets constructed of nickel-plated steel, and 4" adjustable chrome legs.

Note: These fryers require hard-wiring in the field.

### FEATURES AT A GLANCE
